Countdown 20²3⁰

Working Together
to Achieve **Goal 8**

19th-20th June 2022

Lambeth Palace, London

The world is grappling with diverse challenges.

According to the United Nations, COVID-19 has disrupted billions of lives and endangered the global economy. Millions more are being pushed into exploitation and slavery. The pandemic has led to 255 million jobs being lost and a record high number of youths not in the workforce, school or in training.

Two billion people – one quarter of humanity – live in conflict-affected areas. Last year, 84 million were forcibly displaced because of conflict, violence and human rights violations.

The time for urgent action is NOW.

We must do more to bring together various actors and pool global resources to achieve Goal 8 by 2030– End Slavery, Ensure Sustainable Economic Growth and Achieve Decent Work for All.

The aim of this conference is to come together and build Action-based Global Partnerships for 2022 (and beyond) through strong commitments from various stakeholders to expedite and continuously track the global progress on Goal 8.
